

swedish platforms by newS v1.2

for Train Simulator 2014 and above

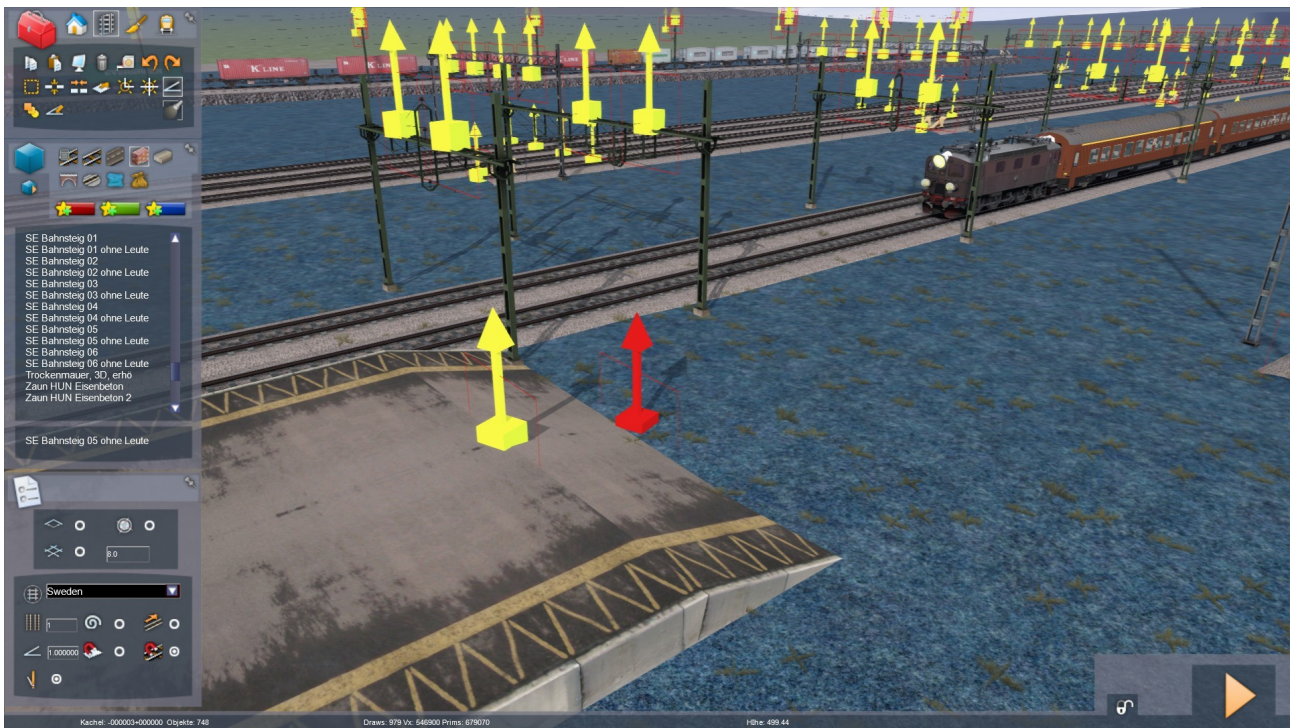

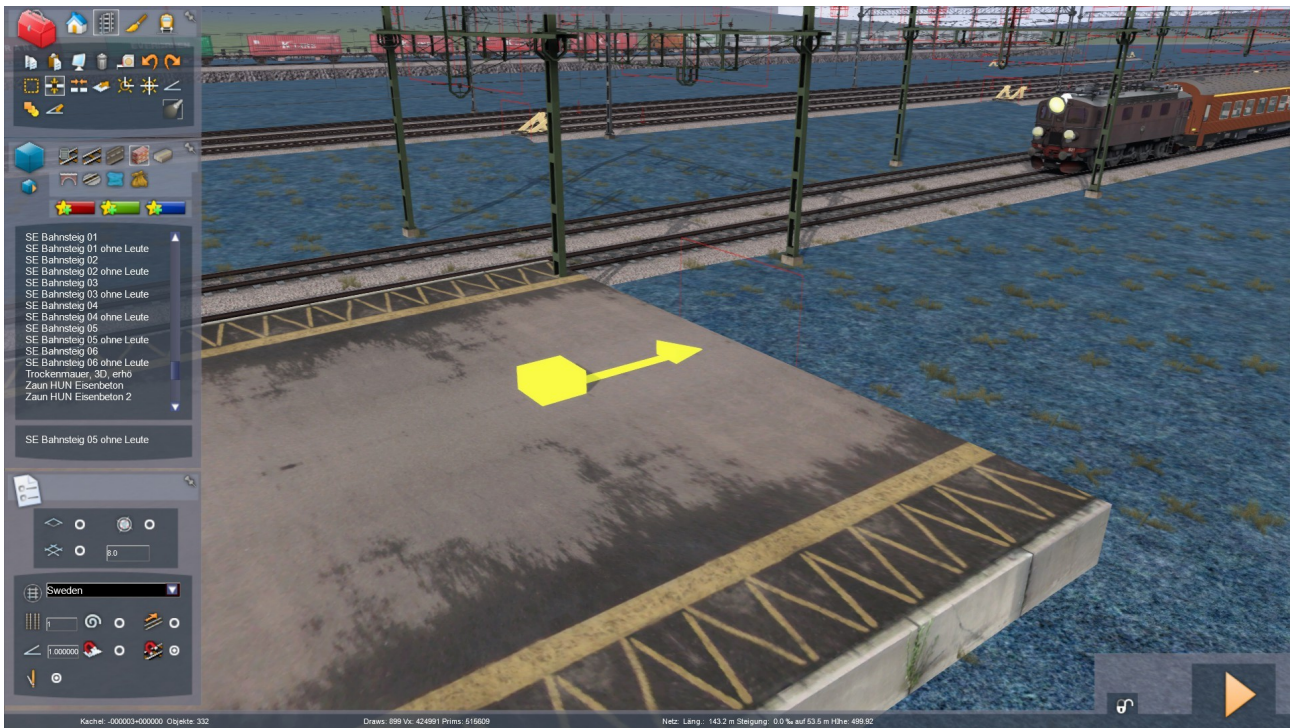

„SE Platform 0x without Peoples“

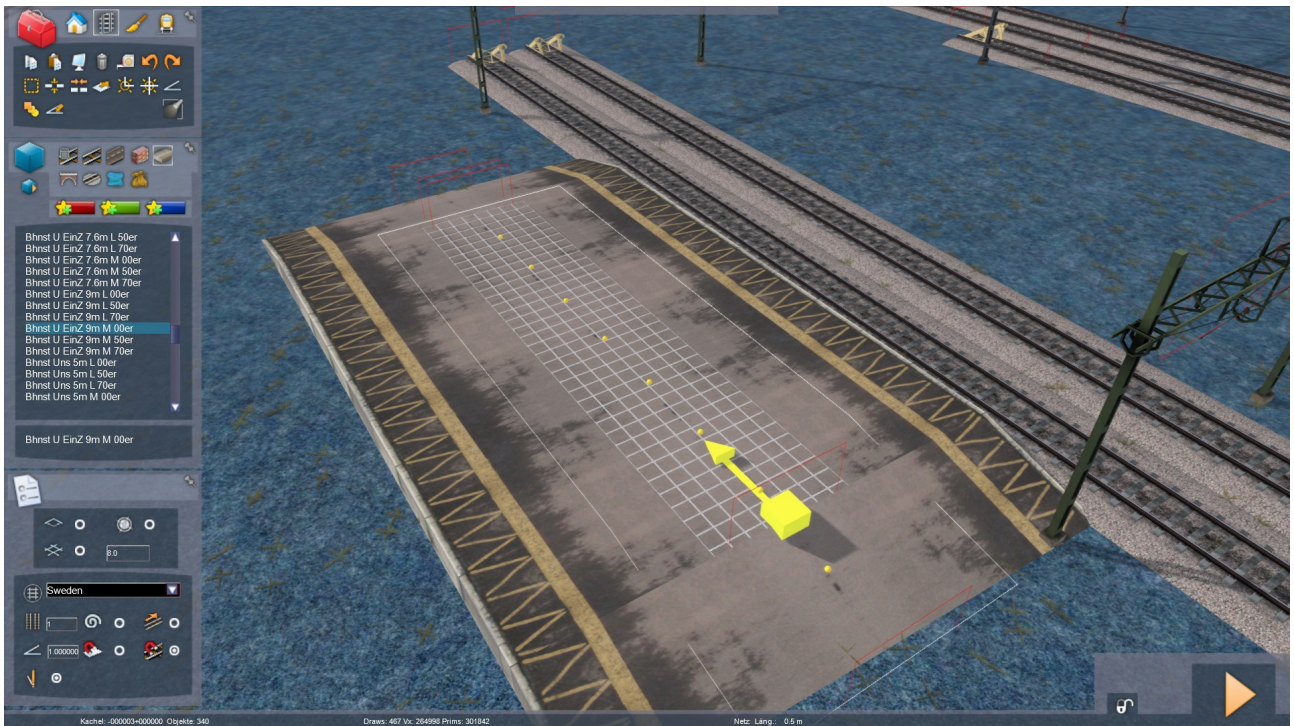

you can use the arrows at the middle of the platform to make it larger or smaller

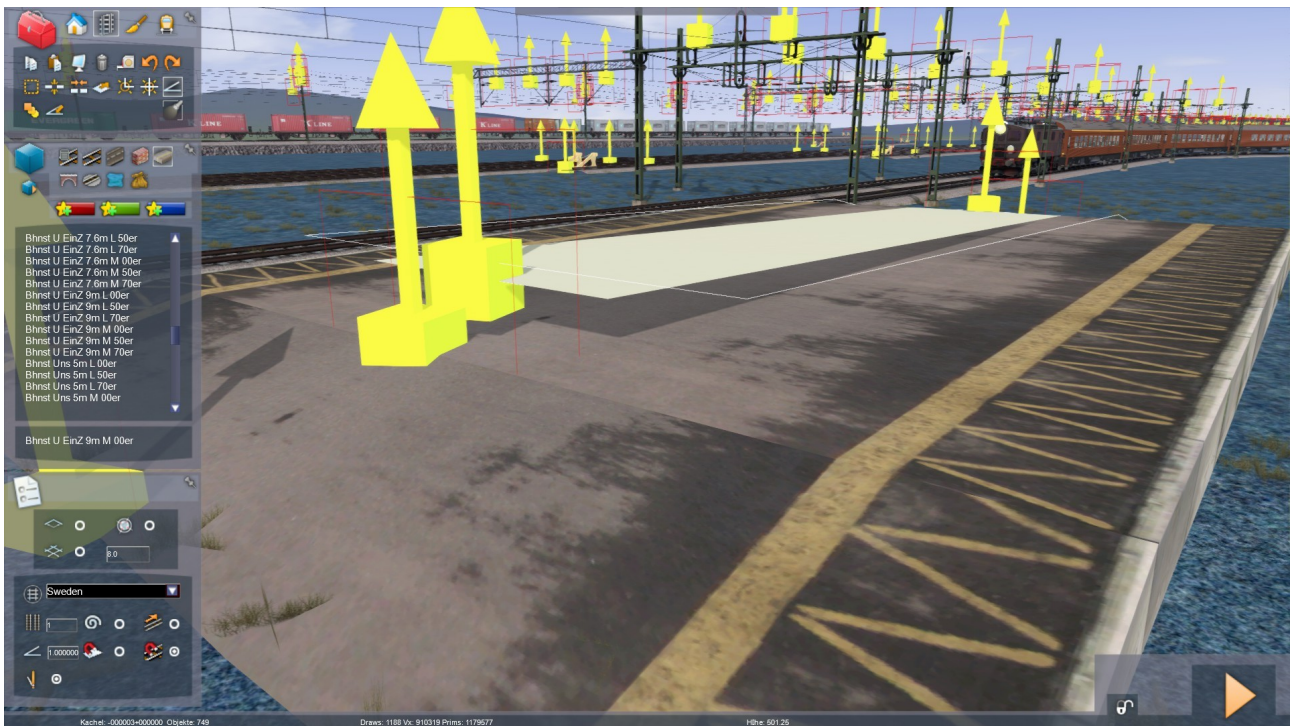

make a **cut!** near the end's of the platform

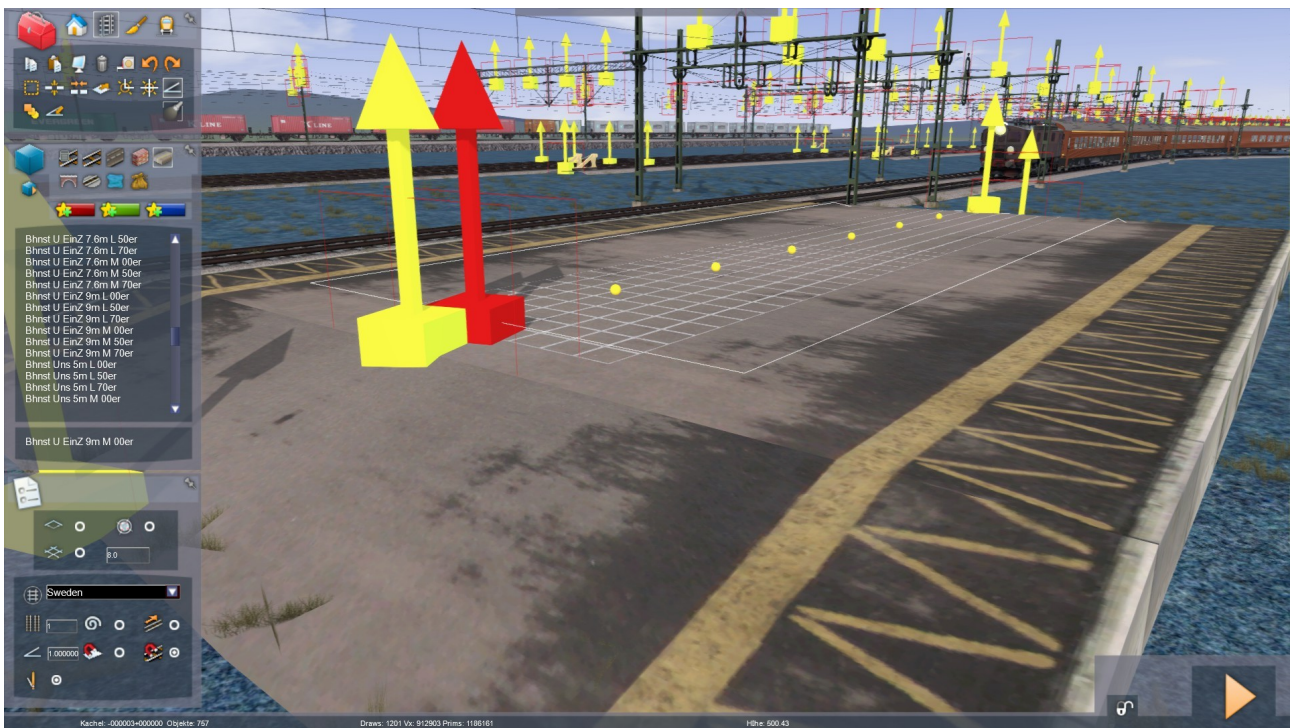

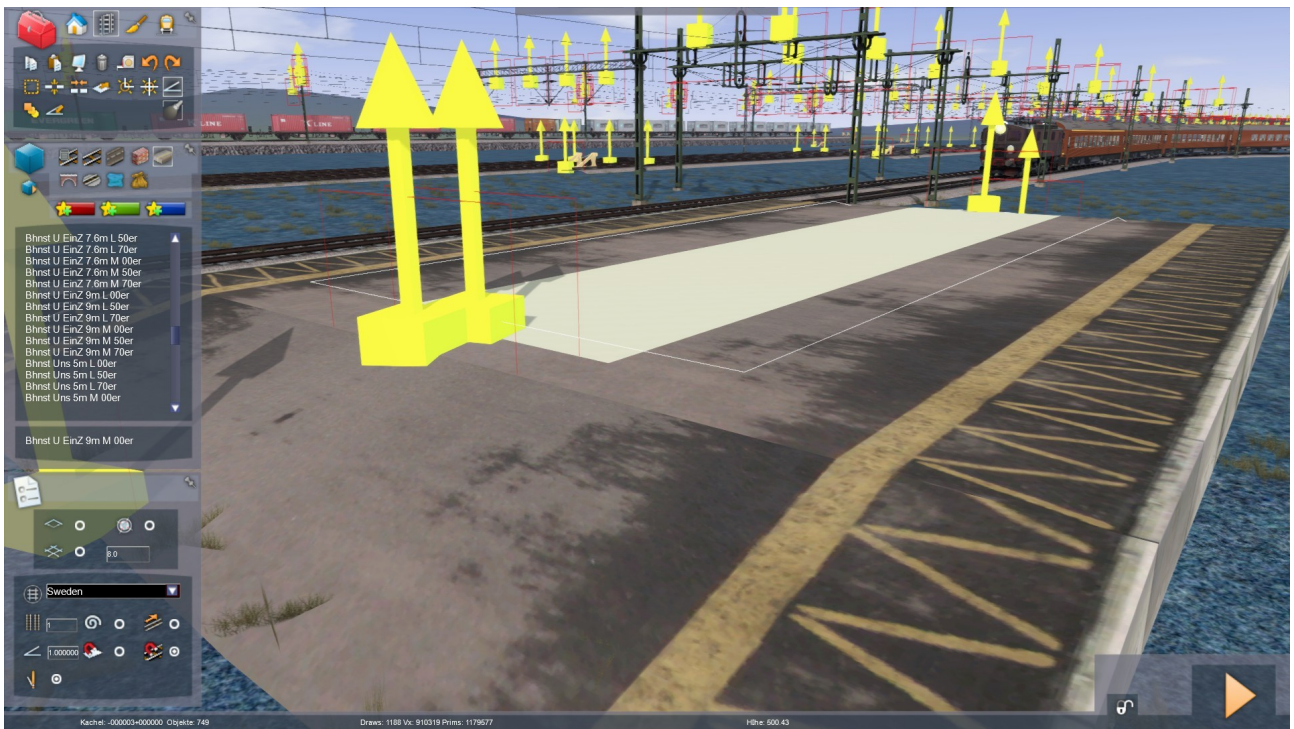

use a invisible platform and put it over the „SE Platform 0x **without** Peoples“

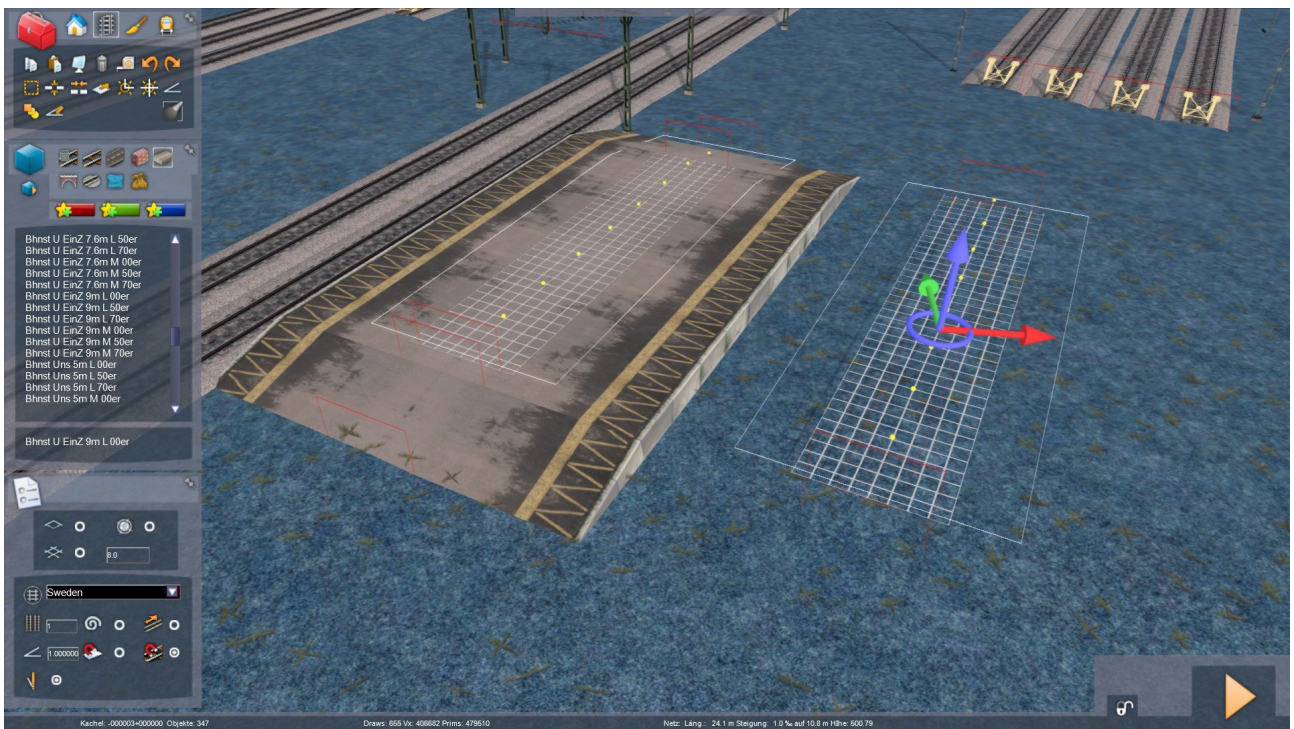

look at the high and adjust it

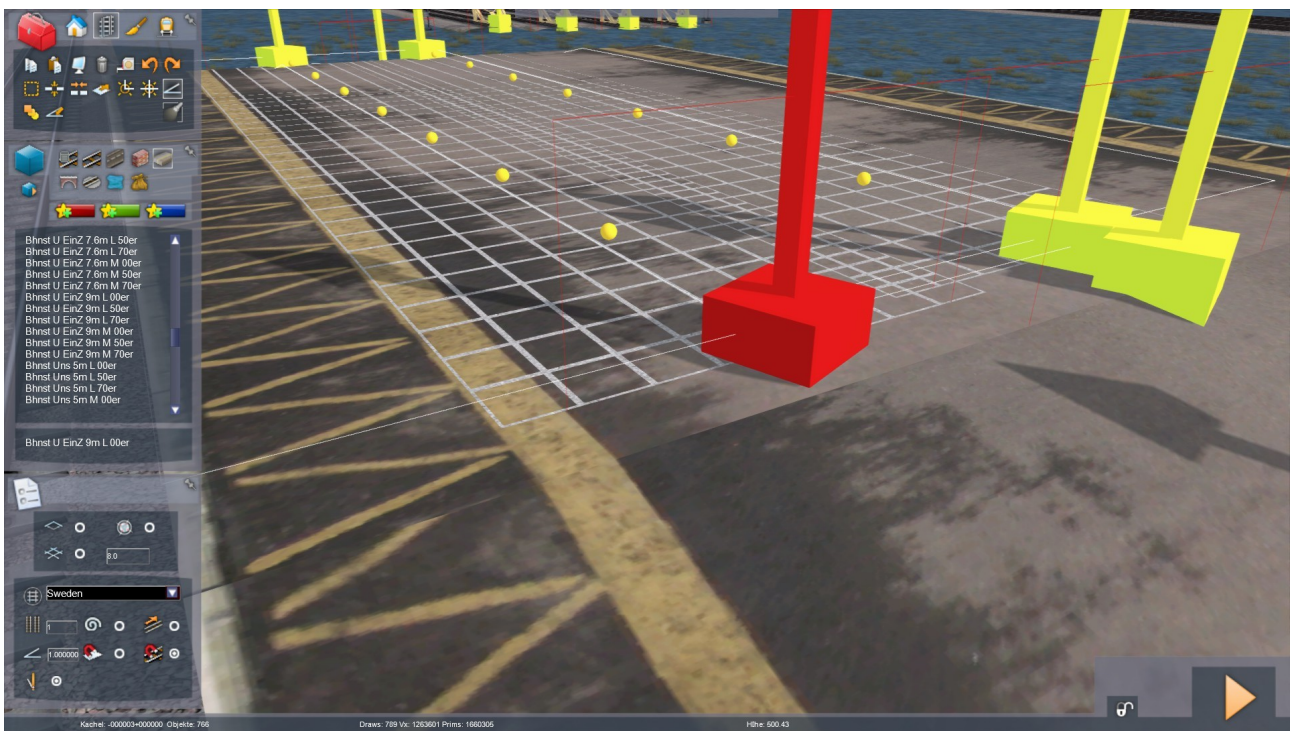

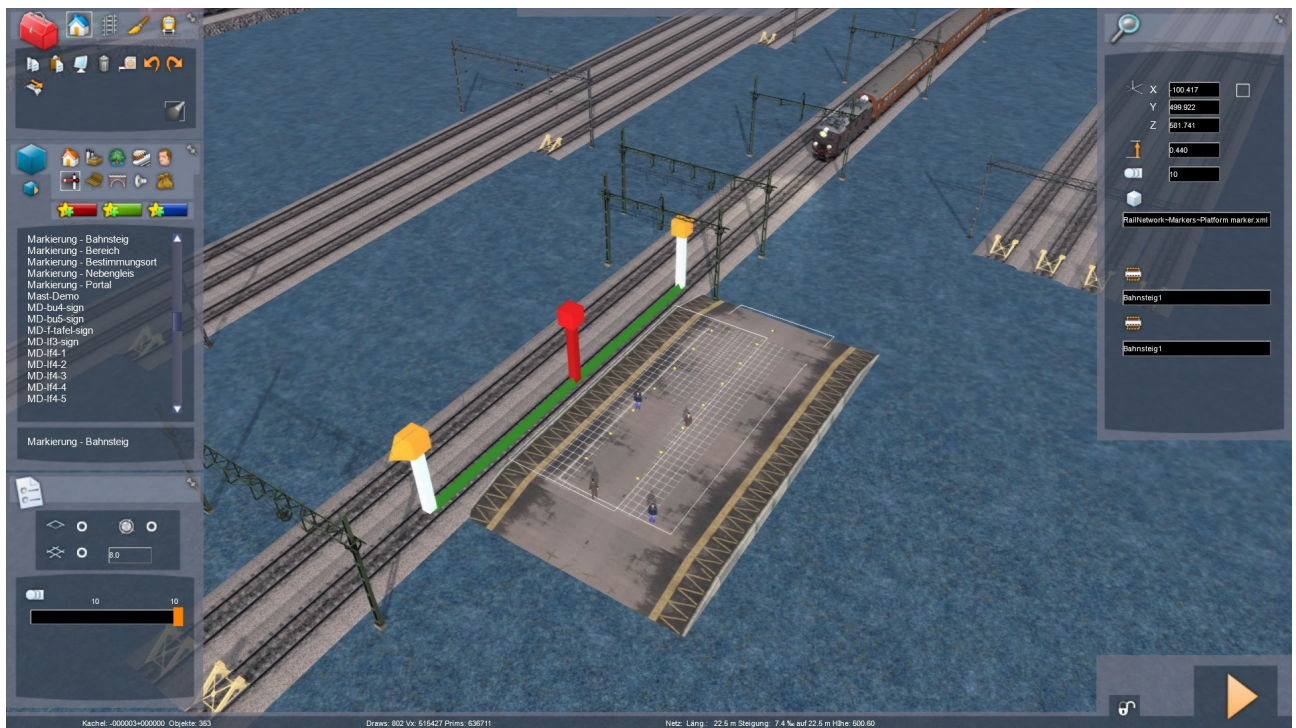

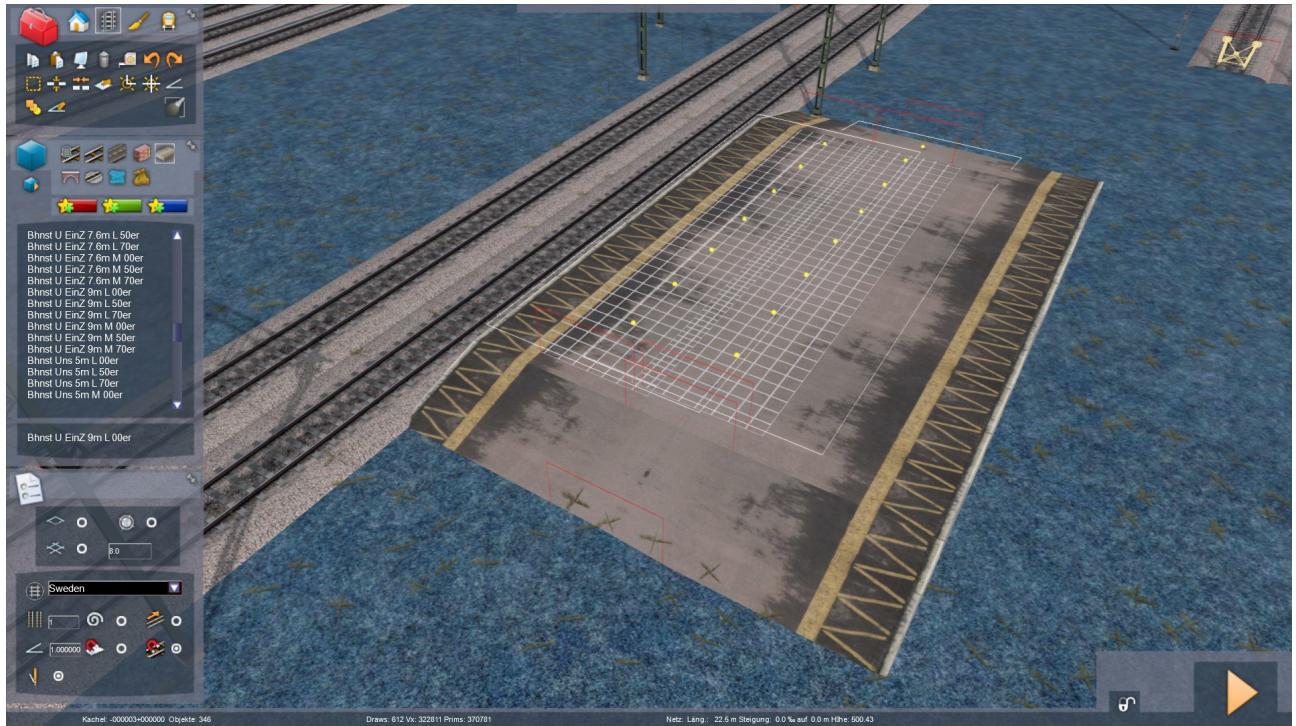

If you have a large platform, add a second invisible platform.

... and adjust the high
